

## **Tinkerine Studios launches Face Shield Lite and Listing with Alberta Pharmacists' Association**

**May 11, 2020 - Tinkerine™ Studios Ltd.** (TSXV: TTD) ("Tinkerine" or the "Company") announces through the implementation of its Production of Things 2.0 initiative using Applied Design, Agile Thinking and de-centralized manufacturing the Company has created and has available for sale the Tinkerine Face Shield Lite. This new product can be viewed on the Tinkerine website at:

<https://store-ca.tinkerine.com/collections/ppes>

Eugene Suyu, Chief Executive Officer states; "We are extremely pleased with our recent progress in applying our Production of Things 2.0 initiative with our partners and supply chain relationships, which has resulted in lower raw material costs and enhanced manufacturing efficiency. Tinkerine Production of Things 2.0 initiative to produce Personal Protective Equipment and additional products seeks to optimize the supply chain and create first mover advantages for localized manufacturing. This process also allows Tinkerine to lower our product sales price while maintaining quality. Our team is actively using our Applied Design background to investigate, evaluate and create new products in Canada."

Tinkerine also announces that it has been approved for listing with the Alberta Pharmacists' Association as an alternate supplier of personal protective equipment. For two decades, the Alberta Pharmacists' Association (RxA) has been a champion for pharmacists in Alberta. Information can be viewed at:

<https://rxa.ca/>

Tinkerine Face Shield Lite meets Health Canada guidelines for eye protection and is designed for sale to any business or entity in Canada and internationally. Production capacity for the Face Shield Lite is being evaluated through additional manufacturing methods including injection molding.

### **About Tinkerine**

Our mission is to provide a foundational understanding about Applied Design driven by 3D printing. Our ecosystem of 3D printing products and educational resources equips future generations with the innovative tools and products to stay ahead in a fast-paced, tech-driven world. Tinkerine enables the curious to convert creative ideas into the tangible and the unimaginable. All Tinkerine 3D printers and education services are designed and manufactured in Canada.
