

Tinkerine Studios receives Additional Orders for 3D Printed Medical Products

March 31, 2020 - Tinkerine™ Studios Ltd. (TSXV: TTD) ("Tinkerine" or the "Company") announces the receipt of additional orders of Tinkerine's Face Shield Version 9. Production commenced on March 26 and has now received inquiries for over 35,000 Face Shields. Production is on-going with delivery taking place on a real-time basis. In addition to initial inquiries, the Company has received recurring order interest on a weekly basis from a large commercial entity. Tinkerine, through Applied Design, is retooling to increase supply of face shields available to over 20,000 per week.

Tinkerine Face Shield

Tinkerine Face Shields in Packing Boxes ready for delivery

Tinkerine awaits Health Canada Medical Device class 1 medical device certification for face shield Version 9. All required documentation has been submitted to Health Canada.

Production is being funded by cash flow generated by current medical product sales.

The Tinkerine team wants to thank all the participating healthcare professionals for their assistance and would like to encourage additional members of the medical community to contact our offices about critical products that may be produced using 3D printers. We also want to express our appreciation to all medical, emergency and frontline staff of essential services for their tireless and selfless efforts to keep us all healthy.

About Tinkerine

Our mission is to provide a foundational understanding about Applied Design driven by 3D printing. Our ecosystem of 3D printing products and educational resources equips future generations with the innovative tools and products to stay ahead in a fast-paced, tech-driven world. Tinkerine enables the curious to convert creative ideas into the tangible and the unimaginable. All Tinkerine 3D printers and education services are designed and manufactured in Canada.
