

Tinkerine Launches Professional Development Courses for Educators

May 2, 2017 - Tinkerine™ Studios Ltd. (TSXV: TTD, FSE: WKN WB6B and OTC: TKSTF) ("Tinkerine" or the "Company") is pleased to announce the launch of additional professional development courses specifically designed for educators. With the new launch of products for educators, those taking the course will get recognized and receive an official certificate for 3D printing in education.

Tinkerine, through its Tinkerine U platform, continues to bring 3D printing and STEAM (Science, Technology, Engineering, Arts, and Math) based learning to new customers and educators globally. Lesson plans can be personalized to adapt to the student, and assist in bringing hand-on experience in teaching 3D printing.

Tinkerine and its management team have been working closely with a number of teachers, professors, and educational institutions for input into providing the best solution for understanding 3D printing. Additional information on course benefits, content, and in-class exercises can be viewed at:
