

Tinkerine Launches Professional Development Courses for Tinkerine U Platform

Vancouver, B.C. – September 27, 2016 -- Tinkerine Studios Ltd. (“Tinkerine” or the “Company”) (TSXV: TTD, FSE: WKN WB6B and OTC: TKSTF) is pleased to announce the launch of Professional Development (“PD”) courses for the Tinkerine U Platform. The PD courses are built to increase literacy in 3D printing skillset and knowledge, and will provide progression for both educators and professionals looking to get a firm understanding of the 3D printing space and related skills.

The PD courses are designed and built with our customers in mind. “To really understanding the potential of the 3D printing industry requires a firm understanding of how the technology can be applied as well as the capabilities of what the technology can achieve.” says Eugene Suyu, President and CEO of Tinkerine.

The PD courses being launched will assist in building relationships with our customers, will allow users to fully utilize the hardware products we produce and provides step by step instructions describing applications utilizing 3D printing processes. As we increase interaction with our customer base of STEAM (Science, Technology, Engineering, Arts and Mathematics) educators and professionals, additional courses will be added to the Tinkerine U platform to facilitate responsive learning programs.

The initial PD courses can be accessed on the Tinkerine U platform at u.tinkerine.com.
